MILITARY TRAINING AREA  
URECHYE, USSR  
BELORUSSIAN MD

25X1A

25X1A

A 4,932-acre training area associated with Urechye Army Barracks Southeast [REDACTED] is located 3.7 miles (5.9 kilometers) southeast of Urechye at 52-54N 027-55E (Figure 1).

Facilities include a 186-acre bivouac area, a troop field exercise area with a tracked-vehicle driver training course and a wheeled-vehicle driver training course within its boundaries, two small arms ranges, 1,170 by 235 feet and 545 by 235 feet, and four moving target tank firing ranges as follows: Two with a target distance of 5,850 feet from static firing line to target (one with twelve 2,925-foot firing lanes and eight target runs and the other with three 1,755-foot firing lanes and one target run), and two with a target distance of 2,340 feet (one with four 1,170-foot firing lanes and two target runs and one with three 1,170-foot firing lanes and two target runs).

Two probable small arms ranges are located within the Urechye Army Barracks South-

east area. One is 685 by 155 feet; the other is 780 by 155 feet. Urechye Sam Site A13-2 is located southeast of the barracks area.

[REDACTED] revealed consistently heavy spring and summer usage. On photography of [REDACTED] the area was snow covered; therefore, winter level of usage could not be determined. The small arms ranges south of the moving target tank firing ranges were constructed between [REDACTED]

No artillery firing positions or impact areas, engineer training or water-crossing training sites, airborne or air transportability training facilities, or rail loading ramps were observed.

The area is served by secondary roads. The nearest rail service is the Slutsk-Urechye rail line 3.7 miles (5.9 km) north of the training area.
